Lawn and Soil Care
Tree and Shrub Care
Watering and Drainage

THE EINHELL GUARANTEE PROMISE.

We develop our products so that you can make everything possible. Our priority here is functionality, safety and quality. That is our promise and this is backed up by our guarantees too.

- **30 Day Money-Back Guarantee**
For 100% satisfaction with your Power X-Change device.
- **Power X-Change Battery Warranty**
Warranty extension for Power X-Change batteries to 2 years.
- **Einhell 2+1 Product Warranty**
Warranty extension for all Einhell products to a total of 3 years.

EINHELL AND BMW i MOTORSPORT. MAKING THE FUTURE POSSIBLE NOW.

EINHELL IS MAIN PARTNER OF BMW i MOTORSPORT. INTO THE FUTURE WITH BATTERY POWER.

More and more DIY enthusiasts and hobby gardeners appreciate the wireless freedom that cordless devices make possible. words of electromobility form the cornerstones of Formula E and also define the power of cordless tools from Einhell. Against this background, the cooperation with BMW i Motorsport was a logical and strategic step the Group is using to pave the way for new forms of communication. Since the 2018/2019 season of the ABB FIA Formula E Championship we are proud to announce that we are Main Partner of BMW i Motorsport. With this partnership, we would like to be even better for you and achieve pole position in battery expertise in the DIY sector.

"Performance, endurance and durability: These are criteria that the batteries in Formula E racing cars have to meet and which also apply to our cordless tools. In cooperation with BMW i Motorsport as part of Formula E, we found the perfect platform to present ourselves as an innovative technology leader in the field of battery-operated tools and garden tools."

Andreas Kroiss, CEO of Einhell Germany AG

BMW AND FORMEL E. FORMULA E AS A PLATFORM FOR THE MOBILITY OF THE FUTURE.

Since the 2018/19 season, BMW i Andretti Motorsport has been represented as a works team in the ABB FIA Formula E Championship. With the new BMW i powertrain for the BMW iFE.18 and the further developed BMW iFE.20, BMW is collecting valuable insight during the races, which will be directly incorporated into the series development of future models and engines like e.g. the iNEXT. The Formula E engine in turn is profiting from the experience of the series.

ADVANTAGES OF THE COLLABORATION. EINHELL AND ITS CUSTOMERS BENEFIT FROM WIDE COVERAGE.

- Perfect match of e-mobility and the Einhell Power X-Change rechargeable battery platform: Innovations that make the future possible
- Wide coverage thanks to the continuous growth in popularity of Formula E
- Additional multiplier effect thanks to the communication of BMW and other cooperation partners
- Growth in international awareness: worldwide staging of the races in the heart of world-famous metropolises

BMW i Motorsport
Official Main Partner

CORDLESS FREEDOM THANKS TO INDEPENDENT RECHARGEABLE BATTERY TECHNOLOGY.

Cordless – gives you freedom on your project.

For working freely and without restriction – without the nuisance and danger of dragging a cable behind you, without noise, fume emissions and the strain of maneuvering heavy petrol-powered equipment.

SAVE SMART.

- JUST ONE RECHARGEABLE BATTERY
- FOR ALL
- IN THE WORKSHOP AND GARDEN

You need just a single rechargeable battery to be able to operate every tool you use in the workshop, home and garden. This means that once you have one rechargeable battery at home, in future you just buy tools without a battery. That is smart, saves stacks of money and helps protect the environment.

EASY – FLEXIBLE. 1 BATTERY. 1000 POSSIBILITIES.

**Fewer batteries to charge up. Fewer chargers.
Less searching for the right rechargeable battery and the right charger.
Less chaos in your storage area.**

That is perfect! The right rechargeable battery is always ready to hand. Tedious searching is a thing of the past. And on top of that, you can be sure of having a tidy basement or storeroom. When you have finished your project, simply take the battery out of the tool and insert it in the charger – and that means in the right one straightaway, because you only need the one! The next time it takes just one easy step and you are ready for action and can get started on your project immediately.

THE ENABLERS RECOMMEND:

CORDLESS FREEDOM.

SYSTEMATIC SAVINGS.

EASY – FLEXIBLE.

POWER X-CHANGE

ACTIVE BATTERY MANAGEMENT SYSTEM. INTELLIGENT ELECTRONIC CONTROL SYSTEM.

The computer-assisted Active Battery Management System permanently monitors and controls all the safety-related processes of the electrical components and associated hardware. This results in a whole range of advantages:

- LONGER BATTERY SERVICE LIFE
- MAXIMISED RUNNING TIMES
- OPTIMISED TOOL POWER
- INCREASED SAFETY

TWIN-PACK® TECHNOLOGY. 18 V + 18 V = 36 V.

If a device needs more power than provided by a single 18 V rechargeable battery, we simply add a second battery so we generate $18\text{ V} + 18\text{ V} = 36\text{ V}$. We call that Twin-Pack® Technology. If the voltage (V) gets doubled, the power (W) gets doubled, too.

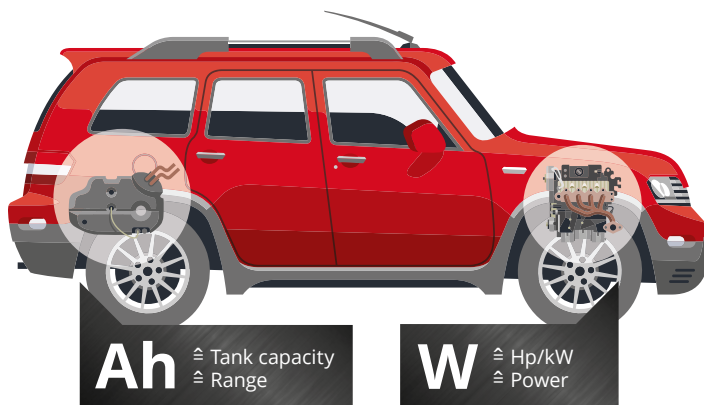

Double Twin-Pack Technology in turn makes it possible to work for even longer still without the nuisance of recharging. In this case, four rechargeable batteries are used. When the power of the first two batteries finally runs out, the system automatically switches over to the two additional batteries.

POWER X-CHANGE PLUS. THE PLUS IN POWER.

Rechargeable batteries vary not just in terms of running time and weight. What is also critically important is the power that they provide. Power X-Change PLUS Technology makes more power available from the same number of cells, so that you can work with plenty of power even on challenging applications as well.

If, for example, you want to use your angle grinder for cutting work, the running time (see Ah rating) is generally not critical. Sufficient power, on the other hand, is. A car is a useful comparison. Uphill or when overtaking, more power, in other words more HP respectively kW, is needed.

BRUSHLESS ENERGY – MORE EFFICIENT WORK.

Various Power X-Change devices are equipped with brushless motors. They offer significant advantages compared to carbon brush motors

- MORE POWER
- LONGER RUNNING TIMES
- LONGER SERVICE LIFE
- MORE COMPACT DESIGN
- MAINTENANCE-FREE

TWO WAYS TO YOUR INDIVIDUAL FREELEXO

Choose the model you want from the FREELEXO series and the accessories which are appropriate for your garden. You can choose between an installation kit which contains a rechargeable battery and all the required components, or a cable kit with an additional rechargeable battery pack if there is not one already.

Option 1: FREELEXO & Installation Kit

Model:
FREELEXO+ or
FREELEXO

Installation Kit (see below):
500 m² or
800 m² or
1200 m²

Option 2: FREELEXO & Starter Kit & Cable Kit

Model:
FREELEXO+ or
FREELEXO

Starter Kit:
2,5 Ah (Art. No. 45.120.97)
or
4,0 Ah (Art. No. 45.120.42)

Cable Kit (see below):
500 m² or
700 m² or
900 m² or
1100 m²

POWER X-CHANGE ELECTRIC START

Easy-to-start petrol engine thanks to the electric start function with the assistance of the Power X-Change battery system – at just the push of a button:

- None of the hassle of starting up with a pull starter
- The rechargeable battery can also be used for other Power X-Change products

CORDLESS LAWN MOWERS

DOUBLE TWIN-PACK TECHNOLOGY

Double twin-pack devices have slots for two additional rechargeable batteries. If, for example, two additional batteries are inserted in the GE-CM 36/47 HW Li (see above) lawnmower, such that all four rechargeable battery slots are filled, you can mow double the area without recharging.

Example (GE-CM 36/47 HW Li):

Twin-Pack 2x 18 V = 500 m²

Double Twin-Pack 2x 18 V + 2x 18 V = 500 m² + 500 m² = 1000 m²

CORDLESS SURFACE BRUSH

4-IN-1 FUNCTION

Cleaning/freshening up of stone, wood, artificial turf and corners and edges

INTEGRATED GARDEN HOSE CONNECTION

Easy, complete and thorough wet cleaning in just one step

INTEGRATED SIDE BRUSH

The special side brush is suitable for perimeter work right up the edge

Cordless Surface Brush
PICOBELLA

ELECTRONIC SPEED CONTROL

Allows individual adjustment to every surface

ADDITIONAL HANDLE

with a practical integrated garden hose routing

TELESCOPIC ALUMINIUM TUBE

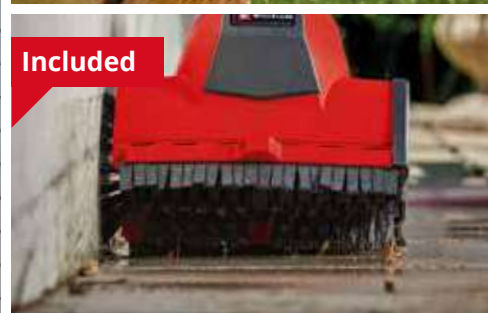

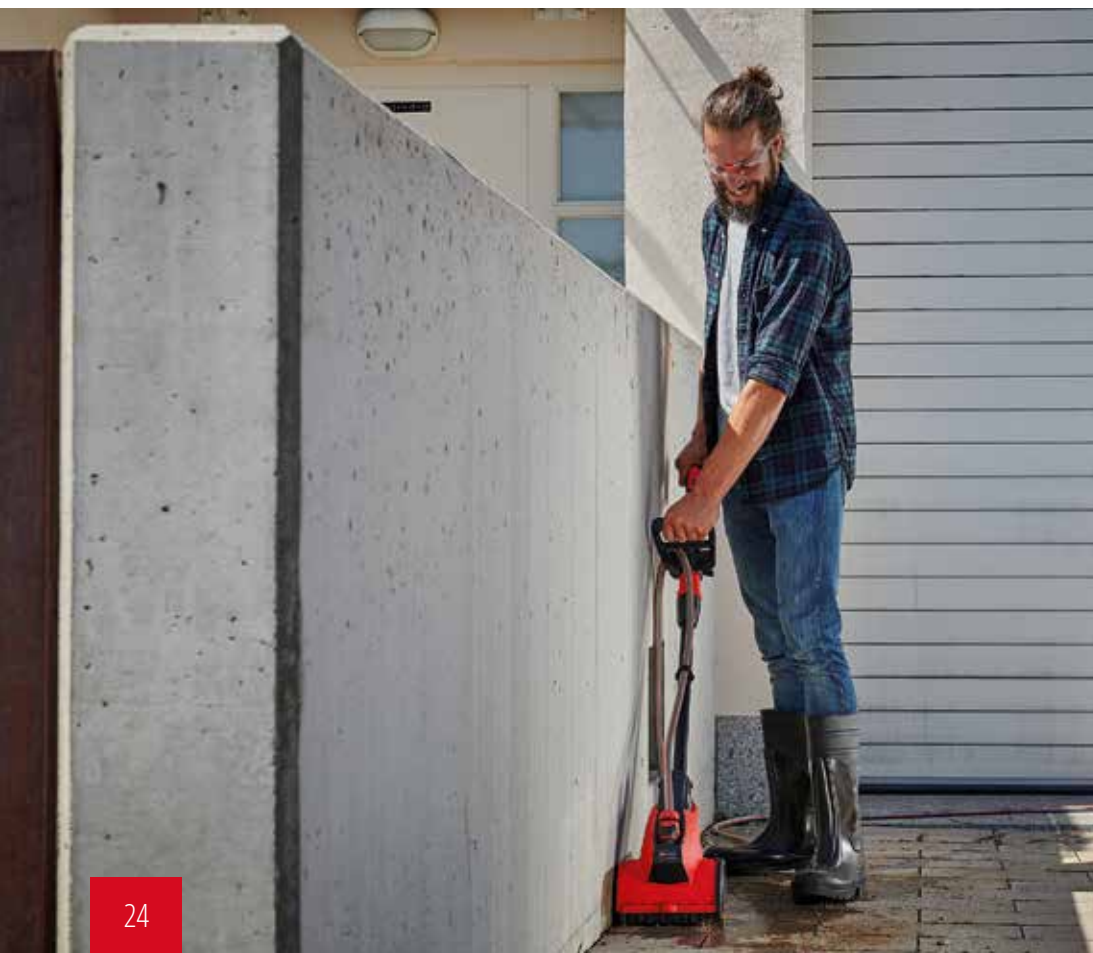

The telescopic aluminium tube can be adjusted to individual requirements for back-friendly operation

BRUSH CHANGE WITHOUT TOOLS

Brushes can be changed easy and quickly at the press of a button

FORWARDS/REVERSE BRUSH OPERATING

For better cleaning results, smooth brush guidance and perfect splash protection

CORDLESS HEDGE TRIMMERS

SWIVELING REAR HANDLE

The rear handle can be swiveled: optimum handling – for vertical and horizontal cuts without fatigue

ERGONOMIC FRONT HANDLE

The slimline front handle with several micro switches makes it comfortable to work with

METAL GEARING

Rugged metal gearing for efficient power transmission and long product life

CUTTINGS COLLECTOR

Perfect removal of the cuttings from the top of the hedge when trimming hedges is ensured by the practical cuttings collector

ALUMINIUM COVER

The product comes complete with a sturdy aluminium cover for protecting the blades

HIGH QUALITY BLADES

The blades made of laser-cut and diamond ground steel are designed for maximum precision and durability

IMPACT GUARD

The impact guard protects the blades and the work area against damage

LAWN AND SOIL CARE

ROBOT LAWN MOWER

	GC-RM 500 CLASSIC NEU
Battery voltage / capacity	28 V / 2.0 Ah
For lawn areas of up to approx.*	500 m²
Cutting width	18 cm
Cutting height adjustment	infinitely / 20 - 60 mm / central
Suitable for slopes up to	35%
Impact, lift and tilt sensors	•
Brushless motor	•
Integrated carry handle	•
Number of batteries / number of chargers	1 / 1
Wire (incl.)	130 m
Fastening hooks (incl.)	190 pcs
Accessories supplied with the product	3 connecting clamps, 3 blades
Article number	34.139.30

* The stated area coverage is based on the assumption of ideal conditions

EINHELL VORTEX TECHNOLOGY

The metal deck is specially designed for an optimum airflow. Thanks to the special shape, the rotating blade generates strong suction which straightens up the grass before it is cut. Only then is it cut and then shredded with great force in the optimized airflow and ejected afterwards.

Connecting a standard garden hose with quick-release coupling enables the lawn mower to be cleaned with ease by the water which is supplied in combination with the rotation of the cutting blade.

LUSHER GREEN THANKS TO MULCHING

Many Einhell lawn mowers can be converted to a mulch mower by fitting a mulching adapter.

The grass is shredded several times and remains on the turf, where it quickly turns to compost. This fertilizes the lawn, reducing evaporation. That protects the lawn from drying out and provides ideal living conditions for microbes, which provide for melioration of the soil.

Care should be taken to cut the length of the stems by just a third at the most. The cuttings will be shredded more efficiently and drop right through to the ground as a result, so they are less of an intrusion when using the lawn. It also contributes to the formation of side shoots in the lawn. The lawn becomes thicker and more lushly green.

MANUAL LAWN MOWERS

HEIGHT ADJUSTABLE LONG HANDLE
The height-adjustable long handle can be adjusted to users of all sizes for ergonomic and user-friendly mowing

LONG HANDLE
Ergonomically shaped and equipped with a soft grip for perfect handling

GRASS CATCH BOX
The removable grass catch box has a capacity of 26 l

CUTTING HEIGHT ADJUSTMENT
The 4-stage cutting height adjustment ensures a precise cutting result

BALL BEARING MOWING SPINDLE
with 5 high-quality precision-ground cutting blades for a perfect cut

QUIET & EFFORTLESS
Thanks to the contactless cutting technology there is reduced friction loss which allows for easier and quieter working

Easy and user-friendly adjustment to the desired working depth

QUICK TOOL CHANGE

The scarifier and aerator rollers can be changed quickly using the supplied tools

CATCH BAG

The large catch bag means long work sessions are no problem

CHAINSAWS

HAND GUARD AND CHAIN BRAKE

Kickback protection with instant reaction mechanical chain brake and large hand guard for safe operation

ERGONOMIC HANDLE POSITIONS

For good and safe handling in all work situations – when cutting either vertically or horizontally – the handles are ergonomically positioned

OIL FILLING OPENING

The large opening in the oil reservoir allows the chain oil to be topped up easily

Electric Chainsaw
GE-EC 2240

SOFT GRIP

Better grip, safe handling and ergonomic operation

METAL STOP CLAW

The rugged metal stop claw keeps the saw stable for added safety and working comfort

OREGON HIGH-QUALITY CHAIN AND BAR

FITTED WITH
OREGON
CHAIN AND BAR

CHAIN TENSIONING AND CHANGING WITHOUT TOOLS

User-friendly: Chain tensioning / changing and chainsaw adjustment without the need for additional tools

METAL GEARING

Rugged metal gearing for efficient power transmission and long product life

SOFT START

The soft start protects the equipment from overloading and provides enhanced user safety

* The GC-EL 3000 E is supplied complete with a large, wide suction tube and a light, narrow blower tube as well. This makes it easy to handle the equipment, and that goes for both the vacuum and the blowing function. Both functions are made available easily by converting from one to the other without the need for any tools.

WATER TECHNOLOGY WATERING AND DRAINAGE

WATERING + DRAINAGE

PROS AT A GLANCE

DRAINAGE

- Delivery of large quantities of water quickly
- Prevention of the worst water damage as far as possible by pumping out quickly
- High level of operational safety and reliability

WATERING

- Uniform garden watering
- User-friendly and safe handling
- Conserves resources and saves drinking water

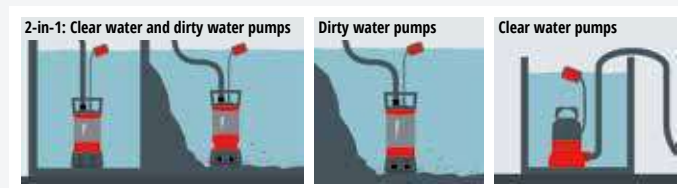

DOMESTIC WATER SUPPLY

- Water supply for the home and garden from alternative water reservoirs (cisterns, wells)
- User-friendly and safe handling
- Conserves resources and saves drinking water

■ DRAINAGE

Repumping/pumping out water – quicker and easier than ever. Pumping both clear water and dirty water with a high delivery rate is no problem with Einhell drainage pumps.

PRODUCTS

- 2-in-1 Multipurpose Pumps
- Dirty Water Pumps
- Clear Water Pumps
- Aqua Sensor Pumps

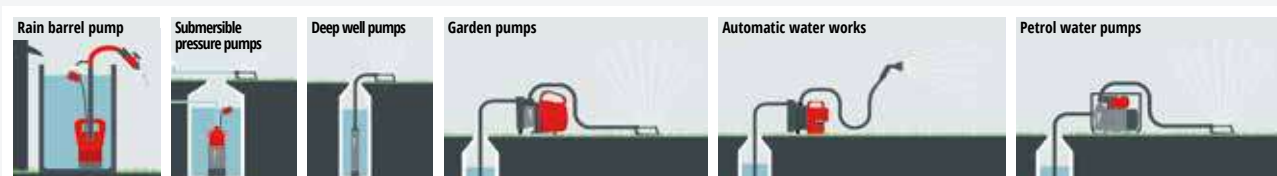

AREAS OF APPLICATION

- Pumping out flooded basements, garages or washing rooms
- Pumping out and repumping from pools, garden ponds, building pits and drainage channels

■ WATERING

To avoid wasting precious drinking water on watering the garden, alternative sources of water such as rainwater or water from cisterns can be used instead.

PRODUCTS

- Rain Barrel Pump
- Submersible Pressure Pumps
- Deep Well Pumps
- Garden Pump
- Automatic Water Works
- Petrol Water Pumps

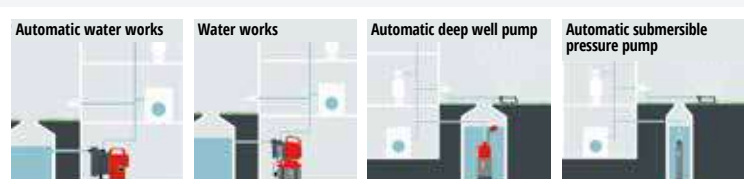

AREAS OF APPLICATION

- Operating lawn sprinklers and garden showers
- Pumping water from wells or cisterns
- Using rainwater from storage areas for watering

■ DOMESTIC WATER SUPPLY

Thanks to a wide range of uses, the home and garden can be supplied with service water automatically.

PRODUCTS

- Automatic Water Works
- Water Works
- Automatic Submersible Pressure Pumps
- Automatic Deep Well Pump

AREAS OF APPLICATION

- Water from alternative sources for supplying the home (washing machine, toilet flushing systems)
- Increasing the pressure in domestic water systems

'AQUA SENSOR' PUMPS

24 HOUR ROUND THE CLOCK PROTECTION

CARRY HANDLE

Sturdy and ergonomic carry handle with integral suspension eyelet for rapid operational readiness

PUMP HOUSING

The long-lasting pump housing made of impact-proof plastic with a stainless steel outer shell can be depended on to withstand the harshest treatment

LONG POWER CABLE

The extra-long connection cable (10 m) enables the pump to be used for very deep immersion depths too

'Aqua Sensor' Clear Water Pump
GE-SP 4390 N-ALL ECO

HOSE CONNECTION

Universal connection is easily accessible on the top of the pump

PATENTED SENSOR SETTING

User-friendly setting of the three sensor starting heights or the continuous operation function

INTEGRAL AQUA SENSOR

The integral aqua sensor means that the pump has a slimline design, so it can be used in constricted spaces, e.g. in shafts

2-IN-1 MULTI-PURPOSE PUMPS

- 1 When the clear water function is activated: The pump starts when the water level is just 10 mm, and not many pumps can do that – plus it works in shallow water as low as 1 mm, i.e. just a quick wipe over at the end and the flooding is quickly forgotten
- 2 When the dirty water function is activated: Even large particles of dirt such as stones and lumps of sludge with diameters up to 20/30 mm (depending on the model) can be suctioned up without difficulty
- 3 2-in-1 function: Evacuation of clear water and wastewater with only one pump!
- 4 Patented suction level control: a simple rotary motion at the pump foot switches the function to suctioning for either shallow clear water or dirty water with large foreign particles

CLEAR WATER PUMPS

CARRY HANDLE

Sturdy and ergonomic carry handle for easy transport

FLOAT SWITCH

Using an infinitely variable float switch, the pump can be switched on and off automatically as the water level changes

UNIVERSAL HOSE CONNECTOR

The submersible pump has a connector for 25/38 mm hoses and a 33.3 mm (1") male thread

CABLE REWIND

A practical cable rewind makes it easy to store this submersible pump

LOW LEVEL EXTRACTION – WHAT LITTLE IS LEFT CAN BE WIPED DRY

The pump can be used at water levels as low as 8 mm. It then sucks up everything right down to a small residual amount of 1 mm of water – which means just a quick wipe over at the end and the job is done

DEEP WELL PUMPS SUBMERSIBLE PRESSURE PUMPS

Submersible Pressure Pump
GE-PP 1100 N-A

■ HOSE CONNECTION WITH STAINLESS STEEL INSERT

The hose connection with stainless steel insert is really robust and long-lasting. Being ideally positioned for access at the top, it makes the pump suitable for use in constricted shafts

■ AUTOMATIC FUNCTION

The equipment switches on automatically when water is required and then off again

■ PUMP HOUSING

The long-lasting pump housing made of rust-proof stainless steel can be depended on to withstand the harshest treatment

■ 4-STAGE IMPELLER SYSTEM

The impeller system is of 4-stage design and therefore supplies extra-high delivery pressure

■ HIGH-QUALITY MECHANICAL SEAL

The high-grade mechanical seal reduces friction and wear and therefore guarantees long service

SURFACE PUMPS 'PLUS'

EASY PUMPING.

WITH THE NEW SURFACE PUMP GENERATION FROM EINHELL.

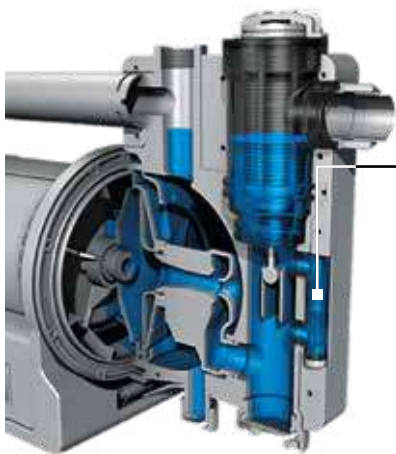

■ INNOVATIVE FEATURES

- Fast and easy installation as well as quick error detection thanks to status indicators
- Long life, low maintenance and exceptional protection thanks to special safety mechanisms

■ HIGHER PERFORMANCE BY LESS ENERGY CONSUMPTION

The new Garden Pumps 'PLUS', Automatic Domestic Water Systems 'PLUS' and Water Works 'PLUS' concept consists of 2 parts:

1. STATUS INDICATORS

EXPERT Version

■ WATER FILLING INDICATOR

Before starting-up the pump for the first time it needs to be filled with water to secure a flawless intake procedure. Thanks to the sight glass the customer can see at first sight if there is already enough water filled into the pump.

CLASSIC Version

■ PRE-FILTER

Easy to clean and easy to change for optimal pump performance.

■ BIG WATER FILLER SCREW

Big water filler opening through which it is very easy to fill water into the pump.

■ SUCTION INDICATOR

The suction pressure gauge in the cover of the water filling opening provides information about the suction height/suction pressure and any possible suction problems.

■ DIRT INDICATOR

Due to transparent material around the pre filter it can easily be seen if the filter is dirty and needs to be cleaned or even replaced by a new one.

2. SAFETY AND PREVENTION

SCALDING PROTECTION

If there is a blockage on the pressure side and the pump continues working, the water that remains in the pump will get hot. To prevent the customer from scalding himself with the hot water when checking the pump, the scalding protection shuts off the pump.

FROST PROTECTION – WATER DRAIN SCREW

Often customers forget to empty the pump before winter and the frozen water destroys the pump. To hinder the water to freeze there is a convenient water drain screw with which the water can be released very quick.

WATER FLOW RECOGNITION SENSOR

Sensor that measures the water flow (LEDs).

-  **Red:** Failure – no water in the pump
-  **Yellow:** Flow detection
-  **Green:** Pump runs normal

DRY RUNNING PROTECTION

If the pump is not able to suck water any more (e.g. empty water source) the dry running safety recognizes this and stops the pump. It tries to start the pump again and if there is still no water getting sucked it stops again and shuts off the pump. This prevents overheating of the pump and so a overheating of the engine.

THERMO PROTECTION

To prevent severe damages, the integrated thermo switch cuts off the pump when the engine overheats.

GARDEN PUMPS 'PLUS'

SUCTION INDICATOR

provides information about the suction height/suction pressure and any possible suction problems

HIGH-QUALITY THREAD

Long service life for the thread and pump

DIRT INDICATOR

It is easy to see whether the filter is dirty and may need cleaning

WATER FILLING INDICATOR

The window tells you at a glance whether and how much water has already been filled in the pump

FROST PROTECTION

The water drain screw makes it easy to completely drain the pump to make it safe from frost

ADDITIONAL PRESSURE CONNECTION

enables a number of consumers to be operated at the same time

Garden Pump 'Plus'
GE-GP 1246 N FS

DRY RUNNING AND SCALDING PROTECTION

The Flow Sensor measures the water flow permanently and thereby prevents damage to the pump
